

BA Insight and Atlas: Better Together

Upland BA Insight and Atlas by ClearPeople are committed to delivering seamless enterprise search experiences that delight users with an effortless interface to uncover precise and actionable search results from any application.

Atlas by ClearPeople

Atlas is an innovative digital workplace platform at the forefront of transforming how organizations connect, collaborate, and succeed in today's dynamic business environment. With its advanced AI-powered technology, user-friendly design, and comprehensive governance and knowledge management features, Atlas offers a seamless user experience within Microsoft 365. Atlas eliminates information chaos, helping users to swiftly access knowledge and break down collaboration barriers, resulting in a culture of efficient teamwork.

How do we work together?

Atlas unifies fragmented information and Microsoft tools, while BA Insight provides 90+ Connectors into existing systems including Microsoft 365 and SharePoint, resulting in:

Access to an enhanced enterprise search, just as if you asked a colleague a question

The ability to preview content from within business applications you use every day

Improved productivity resulting from a truly unified knowledge management experience

What are the benefits?

Atlas and BA Insight enhance search experiences with our comprehensive solution. Here are just a few of the benefits:

- Provide users with reliable information that is both up-to-date and authoritative
- Connect searches with answers regardless of where they are using a web-like search experience
- Increase knowledge productivity by driving collaboration between information seekers and subject matter experts
- Improve collaboration and foster learning experiences between users and experts
- Create consistency between users with a unified search experience

A unified view of client information empowers your people to deliver a stand-out customer experience

Just find the right content faster

Access instant previews and summaries of your content to ensure you're uncovering the right results every time.

Empower your remote workforce

Enhance your organization's collaboration by providing a unified view of your content.

Access AI search at your fingertips

Harness the power of enterprise search powered by Generative AI such as ChatGPT, Microsoft CoPilot, and Syntex.

Allow your team to innovate

A centralized platform for information helps employees harness and tap into collective knowledge bases that were once siloed.

Ready to get things done?

Let us walk you through our search solution.

Upland BA Insight leverages AI technology to deliver a web-like advanced search experience with results that are relevant, personalized, and actionable. The connector-based technology works with enterprises, customer portals, and web sites, turning searches into actionable insights, regardless of where content or users reside.
